

SC06 Demonstration
AIST Booth #325
CCT/LSU Booth #208

Inter-domain advance reservation of
coordinated network and computing resources
over the Pacific

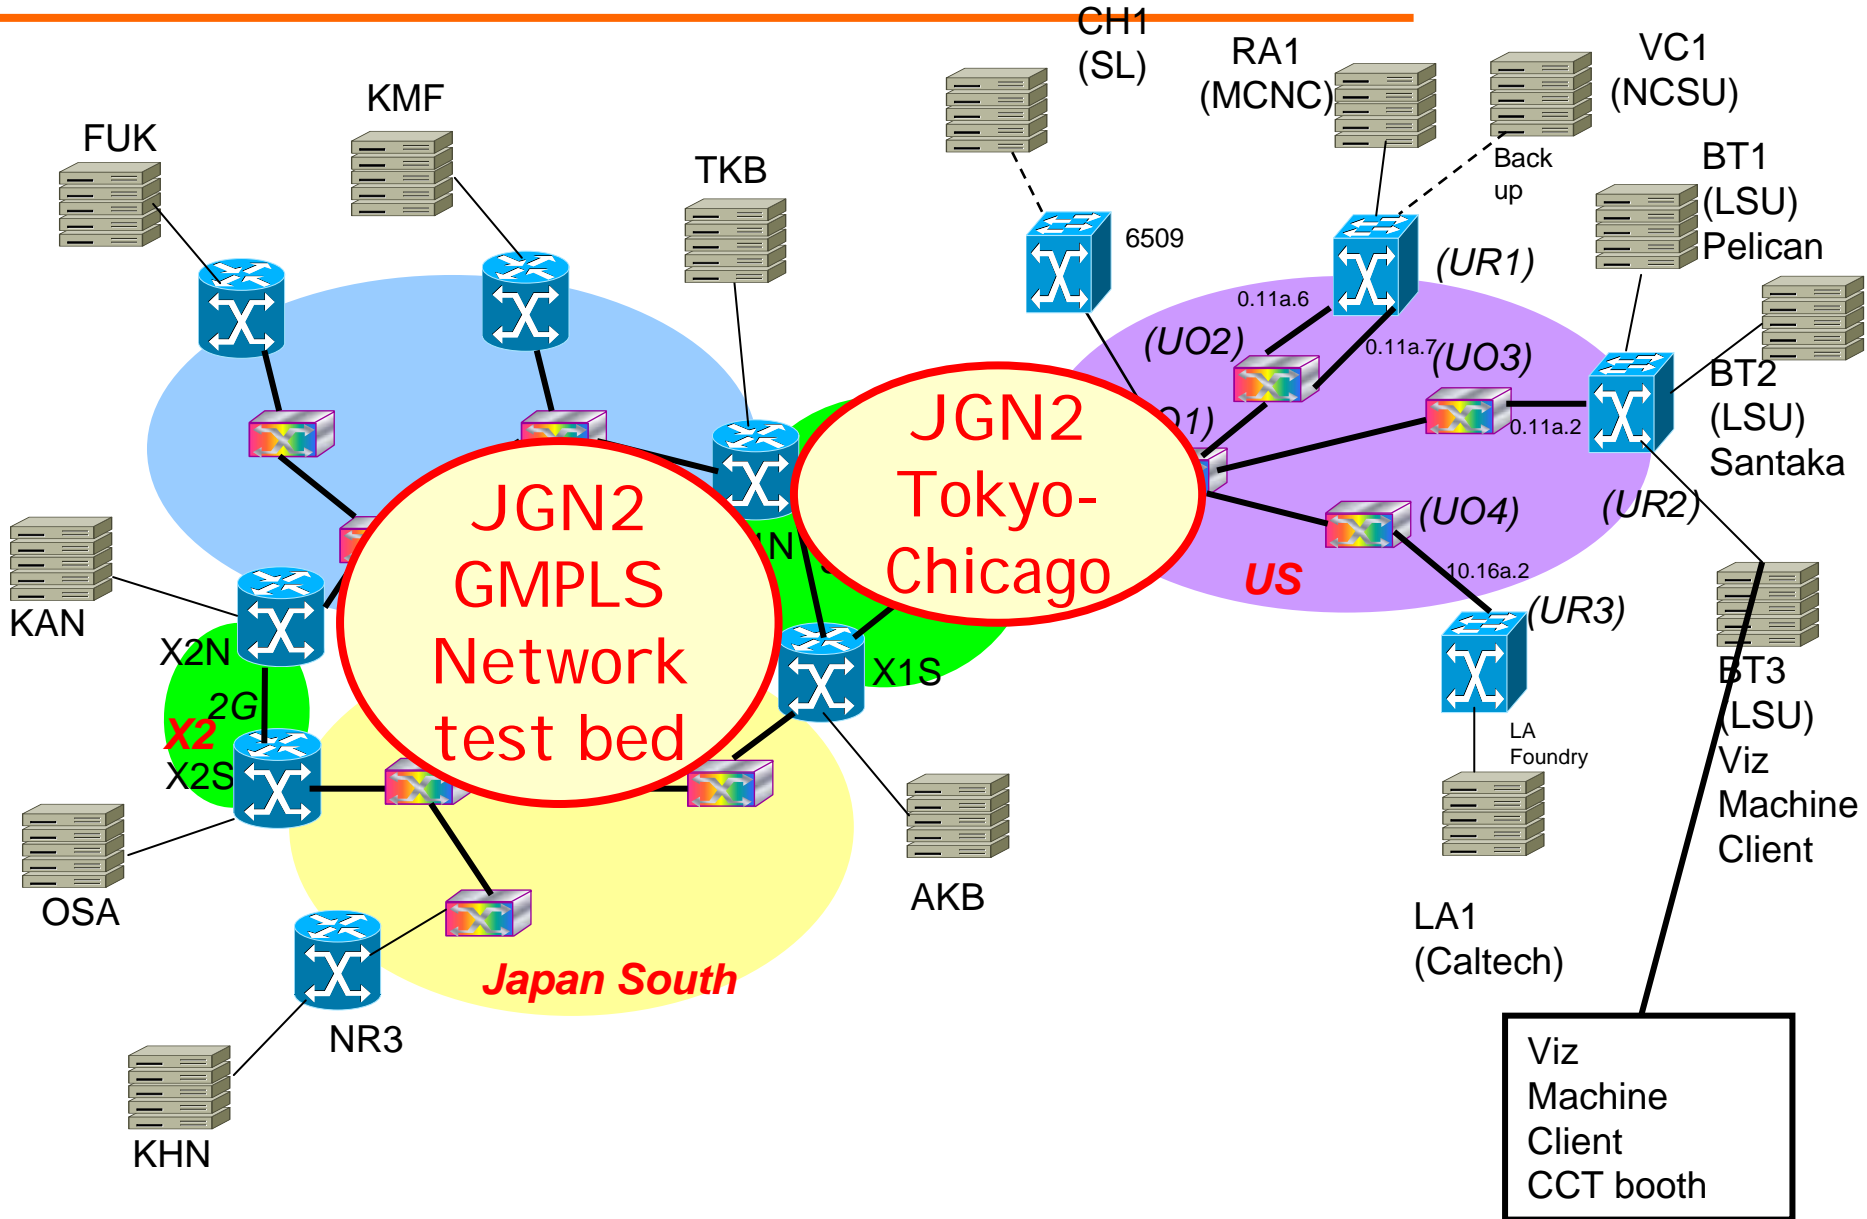

[G-lambda & Enlightened collaboration](#)

What is the demo?

- **Simultaneous in-advance reservation** of **bandwidth** between the US and Japan, and **computing resources** in the US and Japan
- **World's first** inter-domain coordination of resource managers for in-advance reservation
 - Resource managers have different I/F and are independently developed
- “Automated” interoperability between network and computing resources in two countries’ grid computing research testbeds
