

HDTV - Medical Joint Session (Demo) in APAN-NZ Meeting@Queenstown

Katsuyuki Hasebe
hasebe@nict.go.jp

Memories of Michael C. Wellings

- Michael C. Wellings, a pioneer in interactive and streaming media for the Internet, died Thursday, Aug. 28, 2008. He was 57.
- Mr. Wellings was director of broadcast and Internet media engineering at the University of Washington, where he worked since 1996. He also was director of engineering for the ResearchChannel consortium, which provides programming via the Internet and supports a round-the-clock broadcast channel available nationwide.
- In addition, Mr. Wellings was director of engineering for UWTV, the University of Washington's award-winning television channel, as well as KEXP-FM, a radio station licensed to the UW and operated in partnership with the Experience Music Project.

Proposed Joint Session

- In the discussion of HDTV-WG at the APAN 25th Meeting@Hawaii
 - Proposed to have joint demonstration with Medical-WG at next APAN-NZ Meeting
 - Mike, JongWon, Hasebe
- Start to make the configuration, preparation and investigation
 - Sites
 - Contents
 - Equipments
 - Network

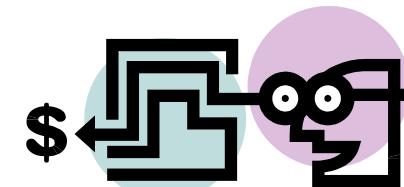

Planning Network

- Candidate Sites
 - Queenstown, Seoul, Tokyo, Seattle
 - Tokyo-Seattle up to 20G
 - Seattle-Queenstown up to 622M
 - Tokyo-Queenstown up to 622M
 - Seoul-other sites up to 622M
 - KAREN
 - Backbone 10G
 - International connection Sydney 622M, Seattle 622M
 - Venue connection 1G

Path and RTTs

- HDTV
 - Seattle to Queenstown 180ms
 - UW-REANNZ(Int)-REANNZ(Nat)
 - Seattle to Tokyo 141ms
 - UW-TransPAC2-APANJP-JGN2plus
 - * JPEG-2000 Encoding/Decoding delay 33~50ms
- SDTV
 - Seoul to Seattle 164ms
 - KOREN-APANJP-TransPAC2-UW
 - Seoul to Queenstown 248ms
 - KOREN-TEIN2SG-AARNET-REANNZ(int)-REANNZ(Nat)
 - Seoul to Tokyo 24ms
 - KOREN-APANJP-JGN2plus
 - * DVTS delay 80~90ms

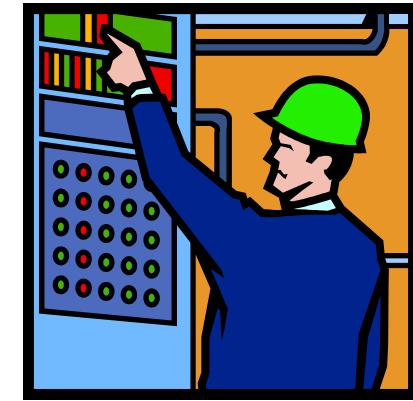

Planning Contents

- Medical
 - Blood vessel anastomosis using a tissue
 - Surgery by Dr. Newell

Planning Equipments

- Visual communication
 - HDTV (Presentation:Seattle->Venue/Tokyo)
 - JPEG-2000/IP Gateway
 - Prepared by NICT
 - SDTV (Communication:All Sites)
 - DVTS/Quatre
 - Prepared by KT Lab/Kyushu-U/NICT
- Display
 - OptiPortal Network Tiled Display
 - 5x3 tile of 24" (1920x1200) LCDs
 - Rocks-4.3/viz roll/SAGE(SVN)/CGLX
 - Prepared by AARNet/UQVisLab
 - imCast
 - Feeding HD-SDI video to SAGE-based tiled display
 - Prepared by GLORI AD-KR HDTV-WG
 - SVC
 - Feeding MPEG2 HD(HDV) to SAGE-based tiled display
 - Prepared by GI ST/EVL

JPEG 2000

- State-of-the -art low bit-rate compression performance
- Progressive transmission by quality, resolution, component, or spatial locality
- Wavelet transform
 - No (low) block noise
- Lossy and lossless compression (with lossless decompression available naturally through all types of progression)
- Random (spatial) access to the bitstream
- Pan and zoom (with decompression of only a subset of the compressed data)
- Compressed domain processing (e.g., rotation and cropping)
- Region of interest coding by progression
- Limited memory implementations

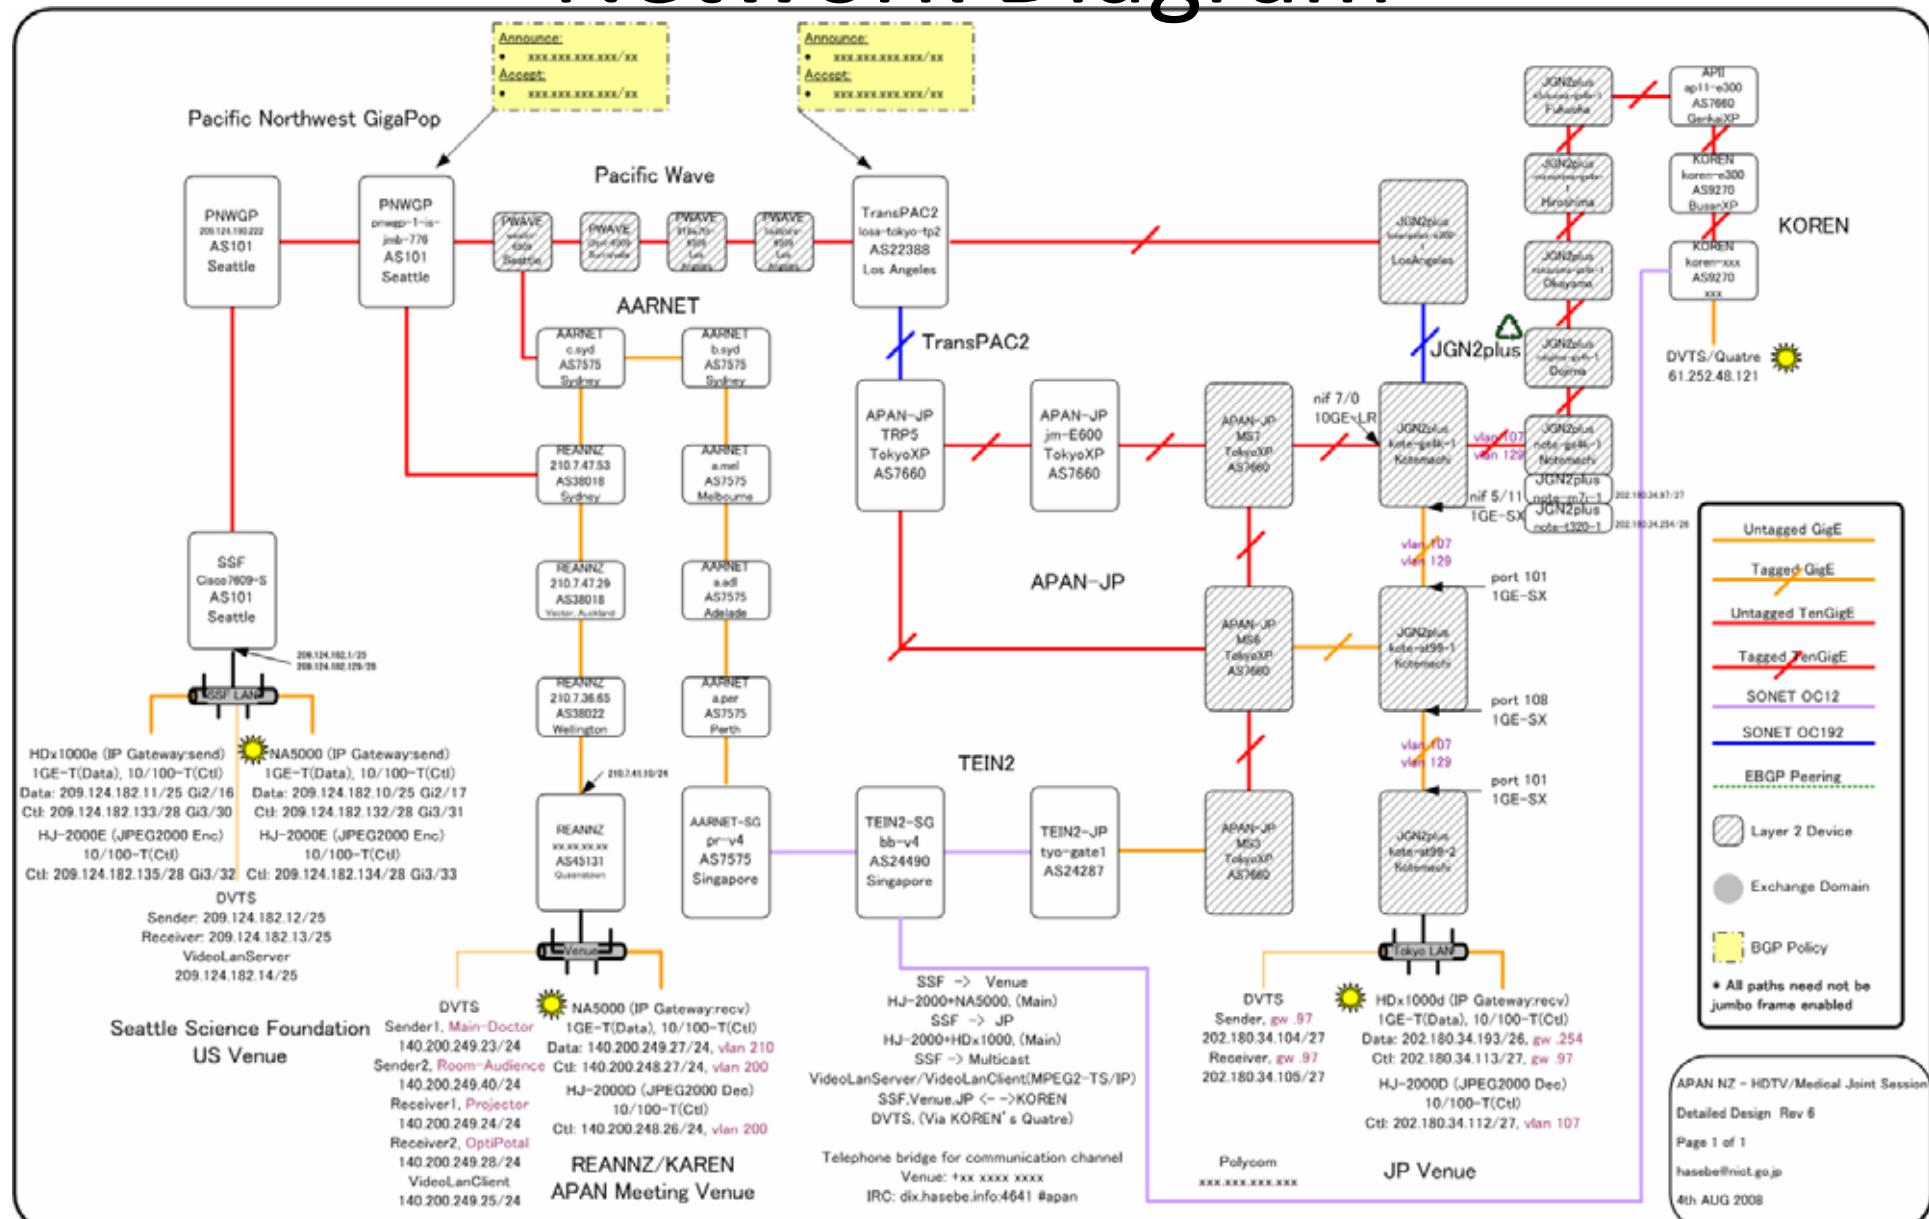

JPEG 2000 STD

- Part1 Core coding system Basic coding/decoding system
- Part2 Extensions Extension of Part1
- Part3 Motion JPEG 2000 Motion Jpeg2000
- Part4 Conformance testing Code stream testing on image transmission
- Part5 Reference software Reference software for testing Jpeg2000
 JasPer software (C) <http://www.imagepower.com/>
 JJ2000 software (Java) <http://jj2000.epfl.ch/>
- Part6 Compound image file format Mixture image (Picture&Text)
- Part7 N/A
- Part8 JPSEC Secured Jpeg2000
- Part9 JPIP Handling on network
- Part10 JP3D 3 Dimensions image

Seattle Science Foundation

Pros and Cons

- Image quality
 - Compressed HDTV is getting good image and low bandwidth
 - But encoder/decoder is expensive
- Preparation/operation at SSF
 - There were no DVTS/VLS PCs and DVCams
 - Only visual engineer is in SSF
- Gap of the delay (audio)
 - HDTV(v): Seattle Queenstown 220ms
 - SDTV(a/v): Seattle Seoul Queenstown 500ms
- Flying Japanese

Totally **64** hours spent on the plane
Carried, installed, set up, checked and withdrew
equipments in 6 carton boxes /w ATA Carnet
+ baggage lost, cancel flight

Project Participants (JP)

- JGN2plus
 - K. Hasebe [hasebe@nict.go.jp]:HD/SD/NW@All locations
 - K. Nakamura [kazuhiko@nict.go.jp] :HD/SD/NW@Tokyo
 - T. Nakao [t.nakao@ntt.com]:HD@SSF/NZ
 - K. Morikubo [morikubo@jgn2.jp]:@Tokyo
- APAN-JP
 - Y. Tahara [ash@wide.ad.jp]:NW@Tokyo
 - Y. Kurokawa [kurokawa@kddnet.ad.jp]:NW@Tokyo
 - J. Tanaka [tanaka@kddnet.ad.jp]:NW@Tokyo
 - Y. Kitamura [kita@jp.apan.net]:
- QGPoP
 - Prof. K. Okamura [oka@ec.kyushu-u.ac.jp]:SD/NW@All Locations
 - Prof. M. Omori [ohmori@chikushi-u.ac.jp]:SD/NW@All Locations

Project Participants (KR,US)

- GIST Networked Media Lab.
 - Prof. JongWon Kim [jongwon@nm.gist.ac.kr]:Chair
 - Jongchurl Park [jcpark@nm.gist.ac.kr]:OptiPortal@NZ
- KOREN-NOC
 - Sunglim Lee [slllee@koren21.net]:SD/NW@KR
 - HeeSang Park [hpark@koren21.net]:NW@KR
 - Sanggyun Kim [sgkim@nia.or.kr]:SD@KR/NZ
